

IS YOUR UPS BEING SERVICED BY THE RIGHT PERSON?

At BCL Power, we don't just plug into SFG20 best practices, we power them with decades of specialist UPS maintenance expertise.

That's what makes us more than your average UPS installer or everyday electrician.

OUR WAY: AMPING THINGS UP WITH SFG20 AND EXPERTISE

Comprehensive Visual & Diagnostic Inspections

Proactive Risk Assessments

Specialist Expertise in Complex Systems

Compliance and Warranty Assurance

ARE YOU USING A GENERAL ELECTRICIAN OR A UPS SPECIALIST TO MAINTAIN YOUR UPS?

Think of a UPS as the heartbeat of your critical systems. Would you trust a GP to perform heart surgery, or would you insist on a cardiologist?

BCL POWER

Traditional Electrician

Expertise

✔ UPS specialists with in-depth knowledge of systems exceeding 10 kVA

✘ General electrical knowledge, limited to basic UPS understanding

SFG20 Compliance

✔ Strict adherence to SFG20 maintenance schedules and practice

✘ Unfamiliar with or inconsistent in applying SFG20 standards

Maintenance Frequency

✔ Regular 6-monthly and 12-monthly checks tailored to OEM recommendations and risk assessments

✘ Maintenance schedules are often reactive and lack consistency

Battery Management

✔ Proactively tests battery autonomy, recharging functionality, and evaluates condition thoroughly

✘ May overlook battery-specific tasks or rely on basic visual inspections

KEY BENEFITS OF CHOOSING BCL POWER

Choosing BCL Power means investing in UPS maintenance that goes beyond the basics — our specialist approach ensures compliance, longevity, and uninterrupted performance for your critical systems.

SFG20-Driven Maintenance Excellence

Thorough, proactive, and compliant maintenance, aligned with SFG20 standards.

Enhanced System Longevity

Regular maintenance extends the lifespan of UPS components, including batteries and power switches.

Minimised Downtime

Our 6 and 12-monthly schedules reduce unexpected failures, ensuring business continuity.

Expertise Beyond the Basics

We offer specialised care for high-capacity systems, something general electricians cannot match.

WHY SFG20 MATTERS FOR YOUR BUSINESS

The SFG20 framework is critical for vital systems like UPS. By choosing BCL Power, you guarantee the highest standards of reliability, efficiency, and compliance for your UPS system.
